PROJECTS

E-Commerce Website - Online Watch Shop

- Designed and developed an e-commerce website for purchasing watches using **HTML**, **CSS**, and **JavaScript**.
- Implemented features such as product browsing, shopping cart functionality, and a user-friendly interface.
- Focused on creating a responsive design to ensure compatibility across devices.
- Enhanced the shopping experience by making the online purchasing process intuitive and efficient.
- **Project Duration:** 05.01.2023-27.03.2023

Weather App

- Developed a dynamic weather application using **HTML**, **CSS**, and **JavaScript** with a third-party **API**.
- Implemented real-time weather data retrieval and displayed it in a user-friendly interface.
- Features include location-based weather updates, temperature, humidity, and weather condition visualization.
- Focused on creating a responsive design for seamless use across devices.
